DAHLIAS

of merit . . .

TO OUR CUSTOMERS

THROUGH this modest little booklet we are endeavoring to offer to you what we believe to be prize winners among the better dahlias.

We have selected these varieties over a period of years and it is our sincere desire to offer only those that will bring entire satisfaction to our customers. We believe our prices are most attractive throughout the entire list.

Each year we are finding new methods for improving our crop and bulb stock. Varying seasons of course have much to do with success in all plant life, but we believe our stock this year is up to standard in every way.

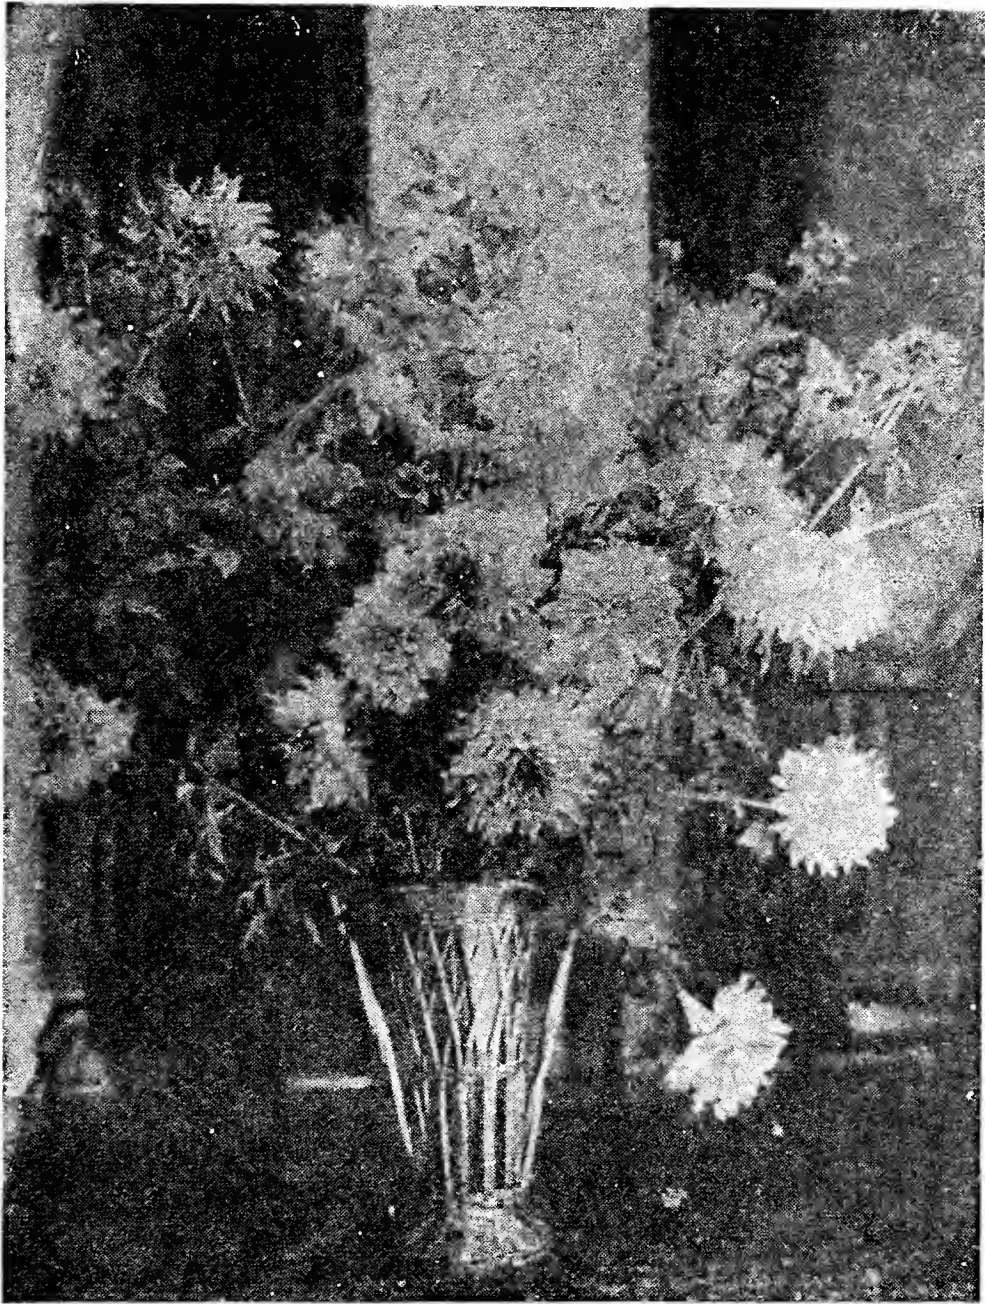

Prices are prepaid to your postoffice or express office. We guarantee all our stock to come true to name and to grow. Any failing to come true to name or to grow will be gladly replaced the following season.

QUANTITY DISCOUNTS

On orders (to one address) where remittance amounts to \$5.00 or more, we will allow a discount of 10%; on remittance of \$10.00 or more a discount of 15%; on orders of \$20.00 or more a discount of 20%.

Please do not send us orders for less than \$1.00 at these prices.

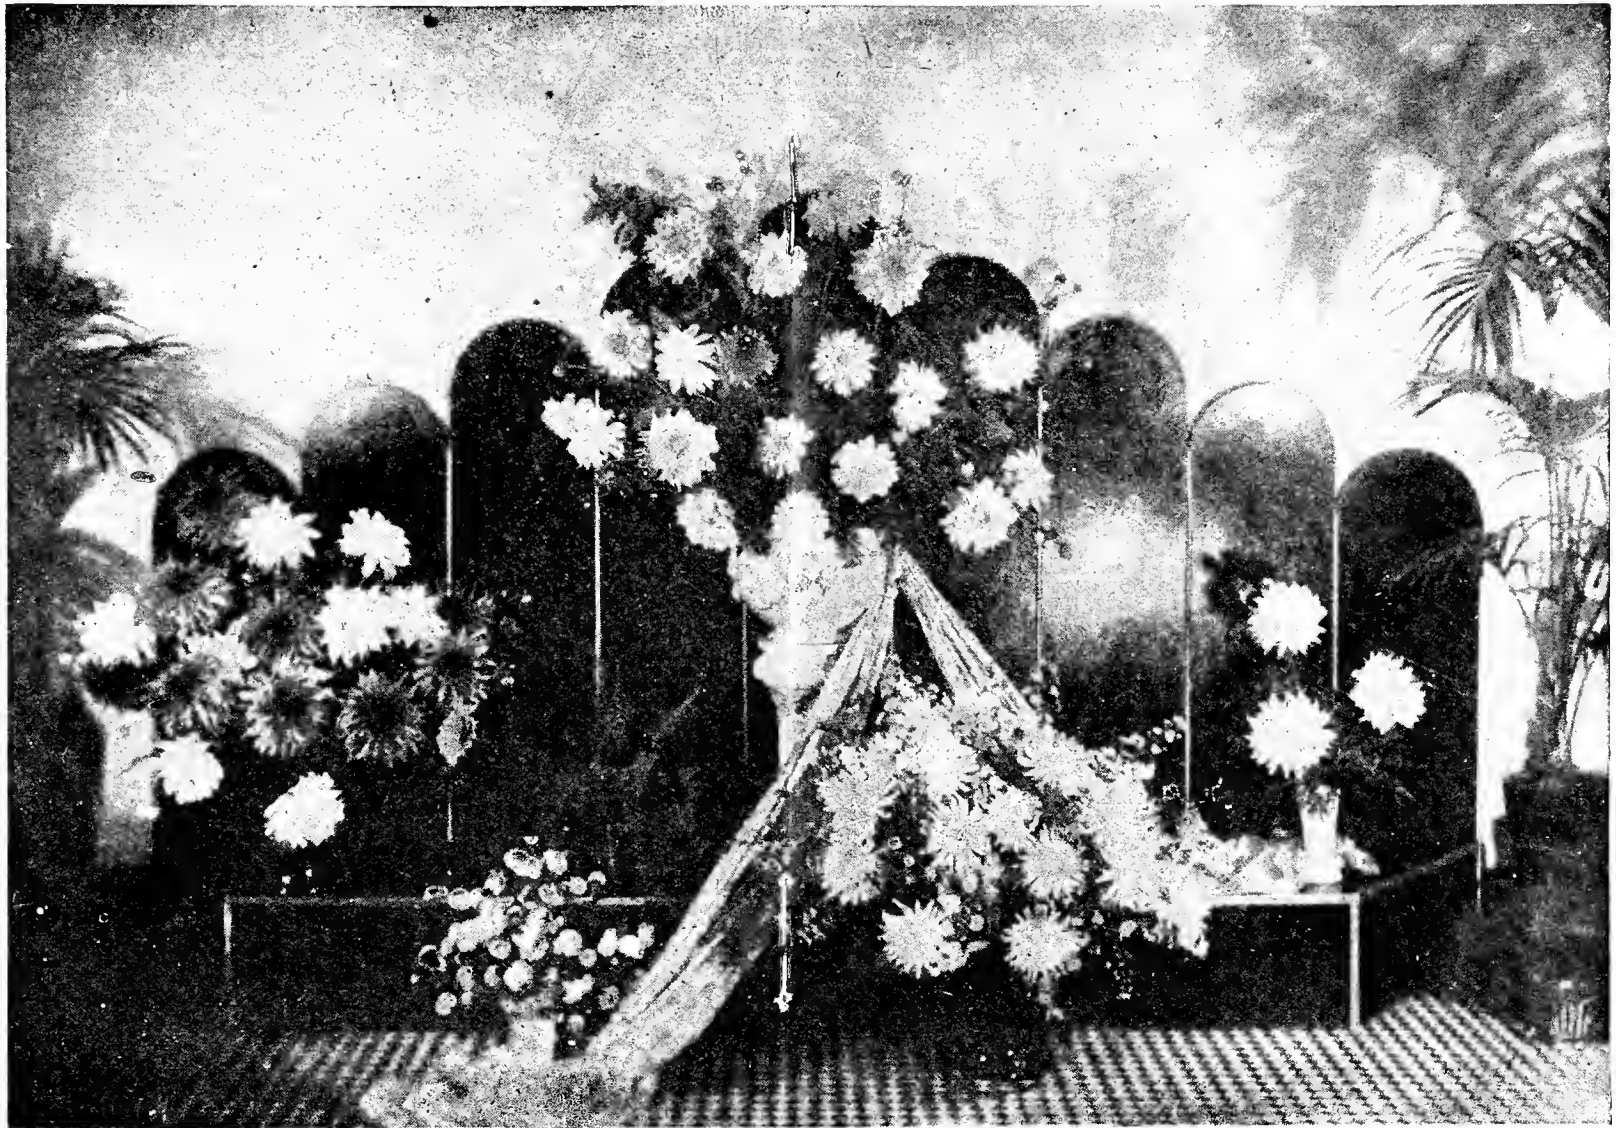

A BOUQUET OF SUNSET BEAUTIES

- ACHIEVEMENT—(ID) (Bailey-Success) \$1.00**
Gold with bronze shading. A very large flower with curled and twisted petals.
- AIKO—(SC) (Dahliadale) 1.50**
Large flower, bright cardinal with silver reverse. A strikingly beautiful flower.
- ALICE WHITTIER—(SC) (Reed)30**

DAHLIA SEED

This seed was gathered from the newer varieties growing in our field, intermingled with varieties known to be good parentage. We gathered this seed for our own use but as we again have a small surplus we are offering same for sale.

50 CHOICE SEED FOR.....	\$1.00
100 CHOICE SEED FOR.....	1.50

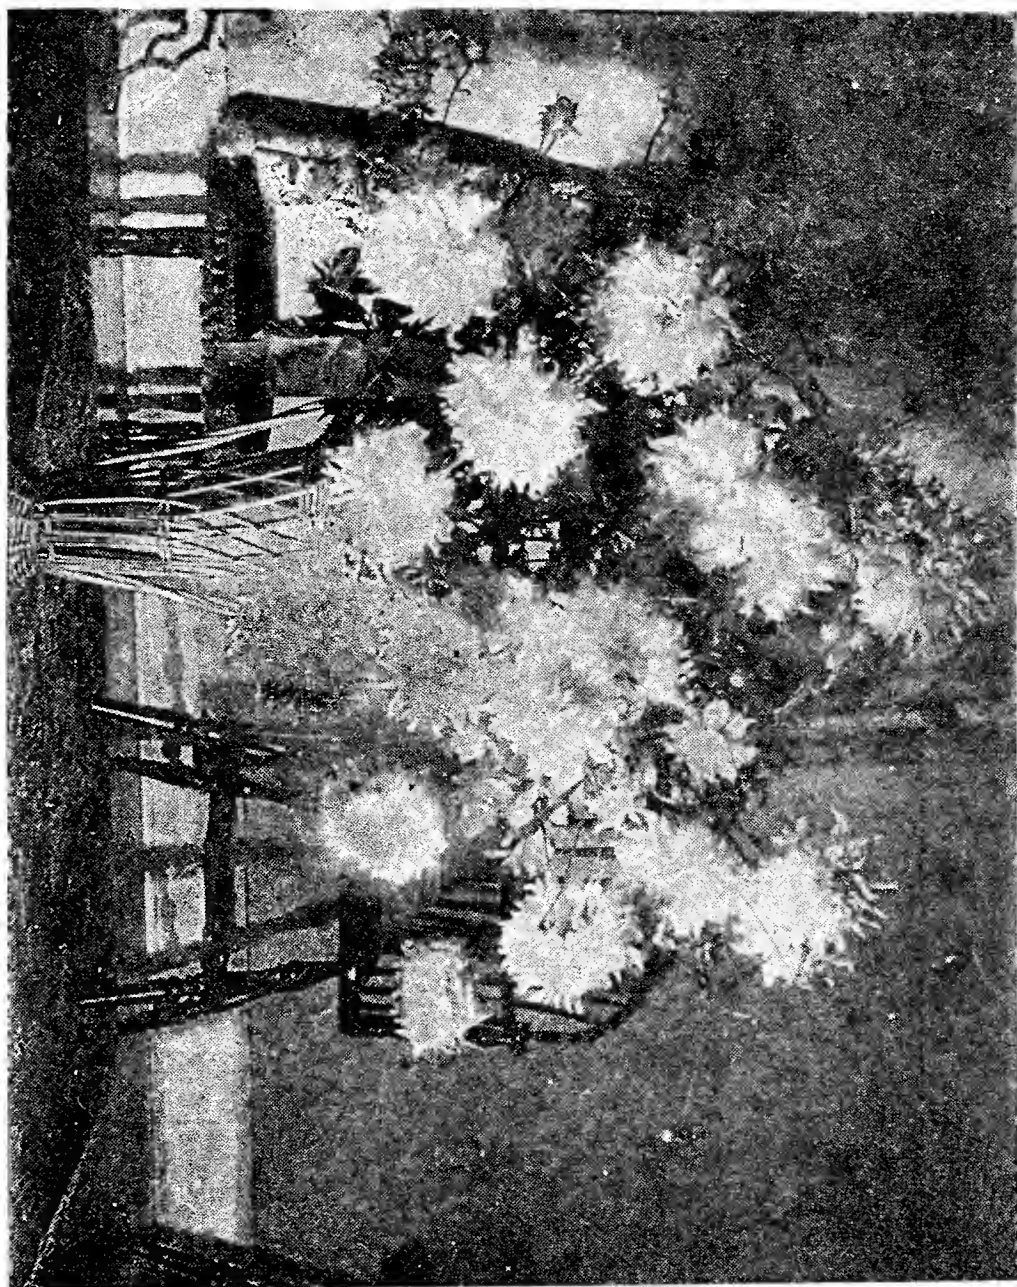

CULTURAL DIRECTIONS

Plant your tubers in a horizontal position about 6 inches deep in well prepared soil. Allow about 3x4 feet for each plant. Do not sprinkle, but soak well every week or ten days during hot weather. Keep surface of the ground well pulverized.

After frost has killed the tops of your dahlias lift them carefully to prevent breaking the "necks." Cut off the tops about 4 inches above tubers and store upside down in a cool cellar.

Cut your blooms late at night or early in the morning, place them in about 3 inches of boiling water for a few minutes, when they are ready for your vases of cool water.
